

A.C.E.

Anomaly Containment & Examination Unit

INITIAL DEPLOYMENT REPORT — ZOLTINS

STATUS: ARCHIVED

DATE: [REDACTED]

LOCATION: ZOLTINS SERVER

SUMMARY:

A.C.E units successfully deployed to designated environment.

Initial scans reported no anomalies beyond expected parameters.

Area deemed stable for early-stage operations.

OBJECTIVE:

Establish temporary research outpost.

Begin low-level environmental monitoring.

Prepare for potential expansion.

NOTES:

Local population showed no immediate awareness of A.C.E presence.

Minimal interference required.

All systems functioning within normal range.

UPDATE 01:

Minor irregularities detected in terrain data.

Dismissed as system error.

A.C.E.

Anomaly Containment & Examination Unit

INITIAL DEPLOYMENT REPORT — ZOLTINS

STATUS: ARCHIVED

DATE: [REDACTED]

LOCATION: ZOLTINS SERVER

UPDATE 02:

Signal interference recorded during routine scan.

Source could not be identified.

Issue unresolved.
